RS Waste Services, Inc. | www.reststoponline.com

To Our Valued Customers, Friends and Colleagues,

These are trying times indeed! However, all of us at Rest Stop Portable Toilets continue to work as an Essential business servicing other Essential businesses.

We continue to service daily routes. We spray High-grade disinfectant on surfaces we come in contact with in addition to the regular cleaning. Our service technicians are provided with boxes of gloves so they can change often throughout the day.

Each truck is equipped with hand sanitizer and is disinfected each afternoon when it is garaged at our facility. Offices are also disinfected daily.

Social distancing is followed and face masks have been provided.

Our specialty is sanitation. We will continue the above even after the virus is behind us. We encourage each of you to do the same.

Stay safe!

Best Regards,

Nita Bailey	Roger Harp	Matt Bailey
